Professional Summary

I am a Java Developer with experience in building scalable and efficient applications using Java, Spring Boot, and SQL databases. Through my training, I have gained hands-on expertise in utilizing technologies such as Microservices, and Git. With a strong passion for developing innovative solutions, I am dedicated to continuous learning and growth within the tech field.

Skills Profile

- Languages:** Java, CSS, HTML
- Frameworks:** Spring Boot, Hibernate, Jakarta EE, JPA, Microservices
- Databases:** MySQL, PostgreSQL
- Tools:** Eclipse, Postman, GitHub, GitHub Copilot, IntelliJ, Microsoft Visual Studio Code, Spring Tools
- DevOps:** JIRA, Jenkins, Git/GitHub
- Operating Systems:** Unix , Windows
- Testing:** JUnit, Mockito, SonarQube

Work Experience

Capgemini(Sep 2024)

- Completed Java Full Stack Developer training at Capgemini, specializing in JAVA, Spring Boot, MySQL, and React.js.
- Project: Book Inventory Management System**
 - Designed and implemented core features such as order creation, order history tracking, and shopping cart functionality.
 - Integrated real-time inventory management with automated stock updates, ensuring smooth and efficient operations.
- Project: Payment Compliance Validation Platform**
 - Implemented unit testing using JUnit and Mockito to ensure functionality and reliability.
 - Performed code quality improvements using SonarQube, aligning with compliance and best practices.
 - Resolved defects and security vulnerabilities, including Cross-Site Scripting (XSS) issues, enhancing application security.

Education
